### 1. Revenues, Expenditures and Changes in Fund Balances – Budget vs. Actual – General Fund as of 12/31/2022

<u>Description</u>: This report is a comparison of the General Fund budgeted revenues, expenditures and transfers compared to actual revenues, expenditures and transfers by month as well as year-end. The approved 2022 general operating fund budget and actual cash basis revenues, expenditures and transfers are represented. Year to date budget distribution is based upon a 12 month proration with the exception of salaries and fringe benefits. Salary and fringe benefit budget distribution is based upon a proration of 26 pay dates. (See Appended Statement – Attachment A).

<u>Current State</u>: Tax revenue appears just slightly under projection. However the new debt service fund calls for a portion of tax revenue to be receipted into that fund. When combined, tax revenue exceeds projections. The other revenue category significantly exceeded projection with the receipt of one time property tax refunds.

Given economic changes and the current labor market salary and utility expenses exceeding their budget are not surprising. In total expenses ended the year eight percent under budget resulting in a fund balance that is on target.

### 2. Receipts, Disbursements and Changes in Fund Balances – Budget vs. Actual – All Funds as of 12/31/2022

<u>Description</u>: This report is a comparison of annual budgeted receipts and disbursements compared to cash basis actuals as of month end. The General, Education/Programming and Capital Construction funds are presented as individual columns. The "Grant Funds", "Land Acquisition/Development" and "All Other Funds" columns are each summaries of multiple funds. The far right column is a total of all funds. General fund budget and actual numbers presented in this report are consistent with those presented in the report listed above. (See Appended Statement -- Attachment B).

<u>Current State</u>: The Education/Programming fund also experienced salaries in excess of the budget but finished the year with a positive fund balance. In the All Other Funds column contract services exceed budget due to reconciliation and reclassification of Buckeye fund expenses. The Buckeye fund has more than sufficient appropriations in other categories to support the reclassification.

### 3. Fund Advances Report – All Funds as of 12/31/2022

<u>Description</u>: This is a report of inter-fund, Board approved advances activity. Advances are made to support reimbursement grants and activities that would otherwise result in negative fund balances. Advances are returned following the receipt of grant reimbursement revenue.

### **Current State:**

| Date of Advance | Fund | Grant                  | Amount       |
|-----------------|------|------------------------|--------------|

**Environmental Protection Agency** 

**Prepared By**: Allen Gallant, Director of Community Development

### **DESCRIPTION:**

Ohio EPA's Recycling and Litter Prevention program supports communities, nonprofits, businesses and academic institutions that initiate or expand recycling programs, encourage sustainable practices, stimulate economic growth and support litter prevention efforts. As part of the Community and Litter Grants program local governments and nonprofits can receive funding to purchase equipment for the collection and processing of recyclables and construction and demolition debris. Organizations can also receive funding to implement litter collection events, outreach, and education.

Metroparks is planning to submit an application as part of the continuing effort to become a leader in sustainability. The Metroparks Toledo Green Team will be improving recycling programs in various parks and facilities throughout the district. Funds from this grant will enable us to purchase recycling bins and hardware, labels and signage, educational materials, and other equipment to collect various recyclable materials.

The maximum request is \$100,000.00 and a 25% match is required. The grant period is for 12 months: July 1, 2023 through June 30, 2024.

### **RECOMMENDATION:**

Approve staff to submit applications for funding through the Ohio Environmental Protection Agency.

**Agenda Item**: Approval of First Amendment to Project Partner

Agreement with The Nature Conservancy

**Prepared By**: Tim Schetter, Chief Natural Resources Officer

### **DESCRIPTION:**

General Background

The Nature Conservancy (TNC) sponsors an In-Lieu Fee Stream and Wetland Mitigation Program in the State of Ohio (the "ILF Program") pursuant to an agreement between TNC, the U.S. Army Corps of Engineers and the Ohio EPA. This ILF Program provides compensatory mitigation for unavoidable adverse impacts to waters of the United States and State Waters that result from activities authorized under Section 404 of the Clean Water Act (33 U.S.C. 1344), the Ohio Revised Code (ORC Chapter 611 – Isolated Wetlands) and/or Ohio Administrative Code (OAC 3745-1) and/or Sections 9 or 10 of the Rivers and Harbors Act (33 U.S.C. §§ 401, 403).

### Oak Openings Preserve Restoration Project Description

On July 22, 2020, the Board of Park Commissioners adopted Resolution 39-20, approving a project partner agreement with The Nature Conservancy to restore 16.1 acres of high-quality wetland and stream habitat at Oak Openings Preserve Metropark with funds from the ILF Program. During the project design phase, The Nature Conservancy identified opportunities to expand and enhance the initial project scope and deliverables to include 39.6 acres of habitat restoration.

The added scope of work addressed in this amendment includes a slight expansion in the size of the two original project locations as well as the addition of a third project location that will restore stream and wetland habitat along a former agricultural ditch draining into AI Creek, with the added benefits of expanding flood storage capacity and improving water quality flowing into AI Creek, a tributary of Swan Creek.

As per the original project agreement, Metroparks agrees to restrict activities (such as clearing, construction of buildings, etc.) that would negatively impact the restoration site's conservation values. Recreational uses that do not adversely affect the site's conservation values (such as walking trails) will continue to be allowed.

### **RECOMMENDATION:**

Approve first amendment to project partner agreement with The Nature Conservancy.
