

2025 Wintering the Towpath Parking Information

The pedestrian bridge over the canal near the Canal Experience parking lot will be under construction during the 2025 Wintering the Towpath event. This construction impacts the fastest and most direct hiking route to the event check in/starting location at the Heritage Center. Because of this, logistics for parking and accessing the event will be different than in years past.

Option 1: Park at Canal Experience lot and shuttle

Participants can park at the Canal Experience lot and catch a shuttle to Kuhlman Landing (see map below). From Kuhlman Landing hike west along the towpath 0.1 miles to the Heritage Center to check in. After the event shuttles will be running from Kuhlman Landing back to the Canal Experience lot.

Please note there is no parking available for hikers at Kuhlman Landing. There is no hiking access from the Canal Experience parking lot to the Heritage Center; hikers that park at the Canal Experience lot must wait for the shuttle.

Option 2: Hike in from Providence Dam (0.46 Miles)

Participants can park at the Providence Dam parking lot and hike east along the towpath approximately 0.46 miles to the Heritage Center to check in.

There will be no shuttles running from the Providence Dam lot to Kuhlman Landing. Participants that park at the dam parking lot must hike to and from the Heritage Center.
