

Maumee River Towpath Backpacking Itinerary (7 Miles)

This is a suggested itinerary for anyone wanting to try backpacking on their own. Metroparks does offer guided trips on the [Overnight Experiences](#) page.

Follow the footsteps of history as you backpack 7 miles over two days on the Towpath Trail along the banks of the mighty Maumee River. Trek through Bend View and Farnsworth Metroparks before enjoying the Maumee River at the Farnsworth Group Campsite. Along the way, you will be treated to scenic river views, colorful signs of spring, and watch for wildlife, such as eagles, turtles, and herons.

There are three reservable campsites at [Farnsworth Campground](#).

Frequently Asked Questions

1. What do I bring?
 - a. [Towpath Map](#)
 - b. [Recommended Packing List](#)
 - c. [Meal Planning Advice](#)
2. How much water should I pack?
 - a. Plan to carry 2-3L of water a day. There will be potable water available in camp—call the ranger to confirm. Do not use backpacking filters to filter the Maumee River for consumption.
3. What do I do with my trash on the trail? Will there be garbage cans?
 - a. Garbage cans can be somewhat seasonal so are not guaranteed.
 - b. Please pack in and pack out all trash and practice Leave No Trace on the trail. For an overview of Leave No Trace (LNT) outdoor ethics: <https://lnt.org/>

4. What if I am a beginner?
 - a. Metroparks offers guided local trips every year. Check out the [Overnight Experiences](#) page.
5. What will camping be like?
 - a. Farnsworth Metropark has an established campground. There are places to use a portable toilet before you hike and have a variety of pit toilets and along the trail. In between these, you will use a trowel/cat-hole system for bathroom purposes on the trail.
6. Not to get into the dirty details, but what does trowel/cat-hole system mean? How do we go #1 and #2 on the trail?
 - a. #1 should be aimed at rocks if possible. Animals are often attracted to the salts and minerals in urine will chew on bark – damaging trees. Using the rock also prevents eroding loose soils.
 - i. Used TP for drying purposes should be packed out.
 - ii. A “pee-dana” or bandana used for wiping #1 only is an excellent option. Keep on the outside of backpack for drying and UV sunlight sanitizing.
 - b. #2 needs to be buried in a cat-hole. Bring a trowel, but the waste does not touch this tool. Use a stick to push the waste in the hole if your aim is not true.
7. Ok, now that I know that, what if I am on my period?
 - a. Similarly, all products, before and after use, will need to go in your bear bag. You cannot bury any products. Multiple ziptop bags are recommended for this.
 - b. Please be prepared as several factors like tenting with others, altitude, or exertion can bring on a menstrual period even if it is not scheduled.
8. Why all the info? This is overwhelming.
 - a. None of this information is intended to scare off potential hikers, but it is very important to make sure you have a full understanding of this trek. Our hope is that you either have all the information you need or feel comfortable asking us the hard questions!

Going in the Woods

Please follow these simple steps when nature calls:

1. Find a spot at least 200 steps from any water source
2. Dig a hole 6-8 inches deep and bury human waste
3. Pack out used toilet paper

When people are not responsible going in the woods they contaminate the water you swim in, fish from, and drink. Bacteria and viruses found in human feces are known to cause hepatitis, blue baby syndrome, salmonella, giardia, and other gastro-intestinal diseases. Remember, the water in the rivers and lakes you visit may flow into your own drinking water supply.
