

Oak Openings Green Ribbon Initiative 2025 Science Summit

PRESENTERS:

A closer look at reptile and small mammal communities in the Oak Openings using AHDriFT camera traps

Jay Wright, Metroparks Toledo

Harmful algal bloom prevention through wetland restoration at Oak Openings Preserve

Lucy Busselle, BGSU

Capturing Ohio's bee diversity by surveying the host plants of diet specialists

Amber Fredenburg, OSU

Avian response to experimental cattle grazing in Oak Openings Preserve

Mark Shieldcastle, BSBO

The Oak Openings Green Ribbon Initiative Science Summit is a venue for sharing and discussing the science of Oak Openings conservation and stewardship.

Please join us for presentations and networking with researchers, students, and land managers with the goal of increasing connections between stakeholders in the Oak Openings region.

**WEDNESDAY, NOVEMBER 12
3 TO 6:30 P.M.**

Nederhouser Community Hall, Olander Park
6930 W. Sylvania Ave., Sylvania, OH 43560

POSTER TOPICS:

Oak Openings sand dune geology, bumble bees, rare Orthoptera, tiger beetles, butterflies, breeding raptors, and native plants

ALL ARE WELCOME

Adult public, students, volunteers, landowners, environmentalists, and conservation supporters!

Light refreshments will be provided by the Green Ribbon Initiative.

RESERVATIONS REQUIRED: surveymonkey.com/r/DTNKZKX
