

# WELCOME!

Thank you for taking the opportunity to participate in this process. It is your feedback that informs the potential of what this bridge be. Our goal for this meeting is to gather your feedback on the vision for the **NEW PEDESTRIAN BRIDGE** across Main Street that will connect the River East Trail and link the park together, while acting as a gateway to East Toledo.

## THE PARK PLANNING PROCESS

The master planning process for the New Waterfront Metropark was completed in the summer of 2018. Design of Phase 1 of the park is underway, which includes the new Main Street Pedestrian Bridge.
